

PRATHAM JADWANI

FRONTEND & CROSS-PLATFORM ENGINEER (FLUTTER & REACT)

jpratham9716@gmail.com • +91 9722768555 • Surat, India • linkedin.com/in/pratham-jadwani-a5b19225a • github.com/PRj2903

PROFESSIONAL SUMMARY

Frontend-focused software developer specializing in **Flutter** and **React.js** with direct experience architecting, shipping, and maintaining production applications end-to-end. Proven track record delivering responsive client projects with under-1s load times, developing real-time university collaboration tools, and integrating resilient Firebase backends.

TECHNICAL SKILLS

Languages	Dart, JavaScript (ES6+), TypeScript, Java (DSA), Python, SQL, HTML5, CSS3
Frameworks & Web	Flutter, React.js, Vite, Tailwind CSS, Framer Motion, GSAP, Node.js, Express.js
State & Backend	Riverpod, Provider, Context API, Firebase (Auth, Firestore, Storage), REST APIs, MySQL
Tools & Practices	Git/GitHub, Postman, WebRTC / Agora SDK, Responsive Design, Performance Optimization

WORK EXPERIENCE

Iqonic Design — Flutter Developer Intern May 2025 – Jun 2025 | Surat, India

- Architected and shipped modular UI components within a multi-developer production codebase for cross-platform Flutter applications.
- Optimized adaptive layouts across 15+ mobile screen profiles and aspect ratios, eliminating layout shifts and ensuring 100% UI consistency.
- Integrated **Firebase Authentication**, **Cloud Firestore**, and **Cloud Storage**, connecting responsive UI views to real-time asynchronous data streams with resilient client-side caching.

KEY PROJECTS

Dada Design Studio — Architectural Firm Portfolio dadadesignstudio.in Jan 2026 | Solo-Built

- Spearheaded end-to-end design, development, and production deployment for an architectural client with zero external engineering assistance.
- Engineered 60fps micro-interactions using **React**, **GSAP**, and **Framer Motion**, delivering a visual showcase with a **95+ Lighthouse performance score** and under-1s initial page loads.
- Configured optimized build and asset pipelines using **Vite**, and structured modular JSON-driven layouts enabling non-technical client updates.

CharuVani — Real-Time Video Conferencing Application Nov 2025 – Present | Lead Developer

- Engineered a cross-platform Flutter collaboration application for CHARUSAT University to power virtual classrooms and conferences.
- Implemented real-time audio/video streaming via **WebRTC** protocols with adaptive bitrate switching for low-latency multi-peer sessions.
- Integrated room management, interactive participant role authorization, and state synchronization using structured state management.

Ptunes — Offline Music Player & Audio Manager Flutter & Dart | Open Source

- Developed a standalone Flutter offline audio player supporting device storage indexing, metadata tag parsing, and persistent queue caching.
- Implemented background audio playback routines and device notification controls utilizing asynchronous Dart streams and local storage.

EDUCATION

B.Tech in Computer Science and Engineering — DEPSTAR, CHARUSAT Jul 2024 – Mar 2027 | CGPA: 7.58/10.0 | Nadiad, India

Relevant Coursework: Full Stack Development, Flutter Mobile Systems, Data Structures & Algorithms, Machine Learning.

Diploma in Computer Engineering — Bhagwan Mahavir University Jul 2021 – May 2024 | CGPA: 8.78 / 10.0
